

P S PRASHANTH

India - +91 9652112754 - p.s.prashanth25@gmail.com - LinkedIn - GitHub

Professional Summary

Integrated M.Tech Software Engineering student with a strong foundation in Java, Object-Oriented Programming, SQL. Experienced in developing web applications and REST APIs using JavaScript, Node.js, and Express.js, with hands-on experience working with databases and application development. Familiar with Agile development practices and interested in building practical software solutions.

Education

VIT-AP University

Integrated M.Tech – Software Engineering

2022 – 2027 (Expected)

CGPA: 8.61

Technical Skills

Programming: Java, JavaScript

Frontend: React.js

Core CS: Object-Oriented Programming (OOP), Operating Systems, DBMS, Computer Networks

Backend & APIs: Node.js, Express.js, REST APIs

Database: SQL, MongoDB

Development: Agile

Projects

Government Scheme Checker – AI-Based Government Scheme Recommendation System

- Developed a web-based system that recommends government schemes based on user profile information and eligibility criteria.
- Implemented a rule-based eligibility engine and integrated **XGBoost** to identify relevant schemes for users.
- Integrated **RAG and LLM-based assistance** to provide personalized scheme recommendations, explanations, and supporting information.

Budget Buddy – Full Stack Expense Management System

- Developed a full-stack expense management application for tracking and managing personal budgets.
- Designed and implemented REST APIs using Node.js and Express.js for application functionality.
- Integrated MongoDB for storing and managing application data.
- Developed the application using a MERN-based technology stack.

Object Detection System – YOLOv5

- Built an AI-based object detection system using YOLOv5 and PyTorch.
- Implemented object detection for images, videos, and webcam input.
- Developed a Streamlit-based interface for visualizing detection results.

Experience

Web Development Intern – RINEX AI Online

Web Development Intern

2024

1 Month

- Worked on web development assignments and application features provided during the internship.
- Developed frontend features and connected them with backend REST APIs.
- Worked with web technologies and backend services to implement assigned application requirements.
- Gained practical experience in software development, API integration, and application development.

Certifications

MERN Full Stack Web Development – RINEX AI

2024

Leadership & Professional Skills

- Led academic teams and participated in university technical and sports activities.
- Served as Cricket Captain and Vice-Captain; awarded Best Wicket-Keeper.
- Strong communication, teamwork, leadership, and problem-solving skills.
- Participated in hackathons and technical events.
